THE GPI ADVANTAGE

Authorised FG Wilson distributor — genuine product, genuine warranty, genuine parts.

Specification support: the correct rating and configuration, matched to your load and site.

Full range from a single source: 40 kVA to 2,500 kVA

Order-to-delivery timelines committed in writing and tracked to despatch.

25+ years of delivery record and clients who return for a second, third, and fourth engagement.

In-country teams. Local accountability, one engineering standard.

FG Wilson generator sets, distributed by GPI,
are **specified across the sectors** where a power
interruption stops everything. The right duty rating for
each application - standby or prime - is matched at the
specification stage.

DUTY RATINGS - MATCH THE SET TO THE LOAD

Every FG Wilson set is rated for a defined duty. Specifying the correct duty class is the difference between a set that lasts and one that is worked beyond its design.

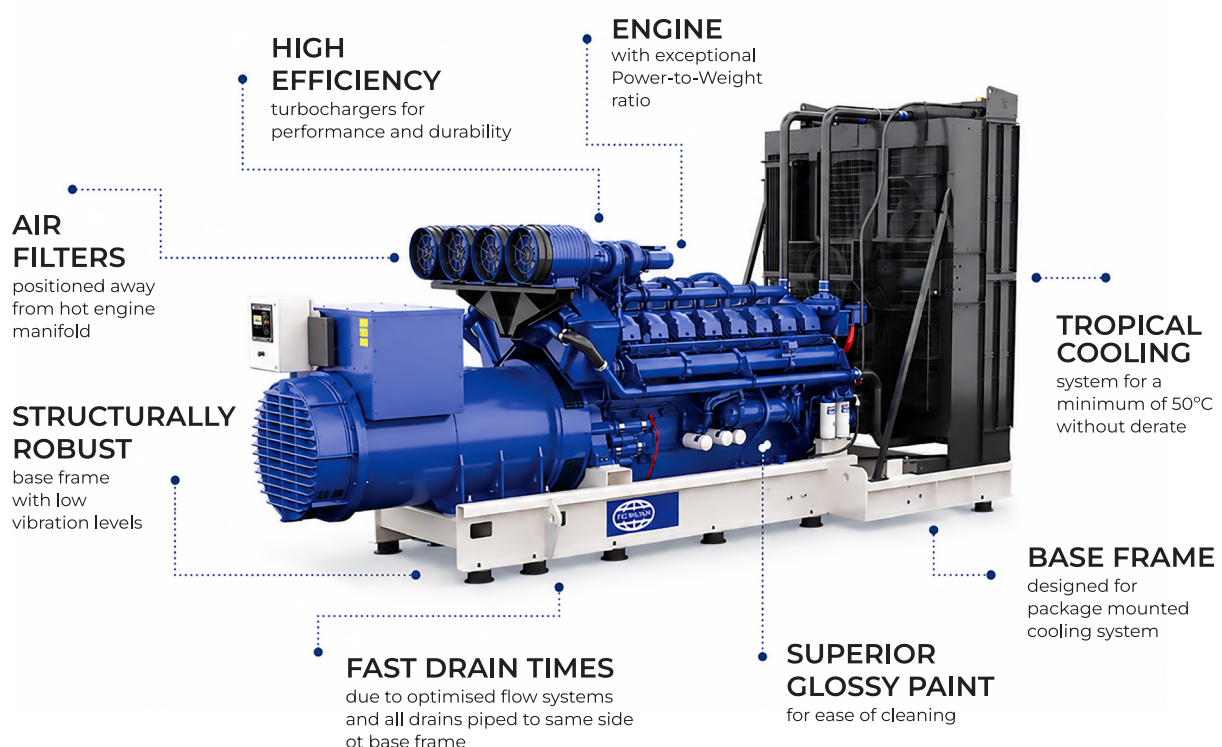

HIGH KVA RANGE

Prime Power

- Best Block loading capacity in the industry
- 8 Cylinder Delivery upto 1250 KVA
- No deration upto 50 degree celcius (tropical raditors)
- 3 year Warranty or 1500 hours

GLOBAL PRODUCT FOR POWERING INDIA

HIGH KVA RANGE

1010-2500 KVA

For loads that cannot wait.
